SHOFIE FADLIYA RAHMA

rahmashofiesk@gmail.com | (+62)852 1323 3399

Professional Summary

Fifth-semester Information Systems student at UIN Sunan Ampel Surabaya with a strong interest in Internet of Things (IoT), system integration, and industrial monitoring solutions. Experienced in developing an IoT-based temperature and humidity monitoring prototype using ESP32, DHT22, MQTT, and Node-RED. Also experienced in academic projects involving database management, application development, and data visualization. Equipped with technical problem-solving skills, teamwork experience, and organizational leadership, with a strong willingness to contribute to system integration and operational monitoring initiatives in an industrial environment.

Education

Universitas Islam Negeri Sunan Ampel Surabaya Information Systems Student | GPA 3.68/4.00 | 5th Semester	Surabaya, 2024 – Present
MAI Attanwir Natural Science Student	Bojonegoro, 2021 – 2024

Project Experience

IoT Temperature and Humidity Monitoring System Developed a temperature and humidity monitoring system using an ESP32 and DHT22 sensor, with MQTT-based data transmission to support real-time monitoring.	ESP32, DHT22, MQTT, Node-RED
BMKG Data Visualization Dashboard Created a dashboard to visualize BMKG data using Streamlit, presenting information through charts and visual elements to make the data easier to understand.	Python, Streamlit
ERP Database and Dashboard Implementation Designed and developed an ERP database using MariaDB and implemented it in a Java-based dashboard application using NetBeans.	MariaDB, PostgreSQL, Java, NetBeans
SkillGrow & Aerofarm UI/UX Prototype Designed a user interface prototype for the SkillGrow & Aerofarm application using Figma, focusing on screen layouts, navigation flow, and user experience.	Figma, Prototyping
Barcode Attendance System Developed a barcode-based attendance system to support attendance recording and management for student organization activities.	Google Apps Script, Google Sheets
Habit Tracker Web/Mobile Application Contributed to the development of a web and mobile habit-tracking application designed to help users record their habits and monitor their progress.	Laravel, Flutter, MySQL
CIFAR-10 Image Classification Worked on an image classification project using the CIFAR-10 dataset and CNN and SVM approaches to explore the application of machine learning in image recognition.	Python, CNN, SVM

Organizational Experience

PASUSKA
Attanwir Special Scout Unit
Bojonegoro, 2021 – 2024

- Served in the Education and Development Section of the Nyai Rahimah Scout Council during the 2023–2024 term.
- Supported event planning and logistics for several programs.

PRAMSA
UINSA Scout Organization
Surabaya, 2024 – Present

- Member of the UINSA Scout Racana.
- Served on event, logistics, and publication, documentation, and design committees for several programs.

HIMAPROSIF UINSA
Information Systems Student Association
Surabaya, 2025 – Present

- Secretary of the Human Resources Development Department (2025).
- Head of the Human Resources Development Department (2026).
- Event committee member for several organizational programs.
- Event Chair of the 2026 Information Systems Character Development Program (PROKSI).

Training & Certifications

- Occupational Health and Safety (K3) Training — Surabaya, 2024
- Mini Bootcamp Explore Figma: Your Gateway to Mastering UI/UX Design — Surabaya, 2024
- Pre-Basic Student Management Skills Training (LKMM Pra-TD) — Surabaya, 2025
- Information and Communication Technology (ICT) Training — Surabaya, 2025
- Basic Student Management Skills Training (LKMM-TD) — Surabaya, 2026
- International MOS Training in Microsoft Word — Sidoarjo, 2026

Technical Skills

- ✓ Programming Languages: Python, Java, PHP, SQL, HTML, CSS
- ✓ IoT & System Integration: ESP32, Arduino IDE, DHT22, MQTT, Node-RED
- ✓ Frameworks & Development Tools: Laravel, Flutter, Streamlit, NetBeans, Anaconda, Jupyter Notebook
- ✓ Database Management: MariaDB, PostgreSQL
- ✓ Data Visualization: Streamlit, Power BI
- ✓ Machine Learning & Image Processing: CNN, SVM
- ✓ UI/UX Design: Figma, Prototyping
- ✓ Productivity Tools: Microsoft Word, Excel, PowerPoint, Google Apps Script, Google Sheets

Soft Skills

- ✓ Communication
- ✓ Teamwork and Collaboration
- ✓ Attention to Detail
- ✓ Time Management
- ✓ Organization and Coordination
- ✓ Technical Documentation
